

## ▶ TH80-JT-Plus Guide-Rail Thick Cable Shrinkable Tuber

- TH80JT-plus is a mountable guide rail version of the TH80-JT to scan and heat shrinkable tube.
- It is suitable for super long heat shrinkable tubing and can also be used for the continuous heating of multiple thick heat shrinkable tubes.

### Main Specifications

Max Tube Diameter	30mm
Max Tube Length	135mm (std) Up to 205mm (customizable)
Heating area	358x120, 358x180 (standard), 458x220, 520x250 mm
Temperature Control	Max 550±1°C
Time Control	0-999±0.1S
Power	220-240VAC, 2kW std, up to 5kW optional
Control	Trivers integrated control card
Options	Customizable: Rail length, Harness tooling/holders, heaters
Power supply	220VAC 50Hz 2000W (standard) 380VAC 50Hz 5000W (customizable)

### about us

Trivers Shanghai, established in 2007 by Trivers Australia, has a series of over 10 products in robotic production lines & wire harness assembly automation backed by patents. It is an authorized supplier to several Fortune 500 companies, is an executive member of the Shanghai Robot Alliance, and is a key member of government R&D projects.
