

▶ TR48-CG-ABF Thick Wire Tuber (Pipe Threader)

- The TR48-CG-ABF pipe threading machine is a special equipment that replaces manual penetration of multiple strands of large wire harnesses tightly in a corrugated conduit.
- The machine is mainly composed of several major components such as error-proof harness traction fixture, corrugated conduit anti-drag positioning fixture, harness arrangement sequence sensor, servo tie rod mechanism and electronic control system

SPECIFICATIONS

Main Station Size	3850mm (length) X 700mm (width) X 1600mm (height)
Cycle time	150s
Travel range of guiding rod clamp:	885mm
Air Supply	0.7 MPa
Power Supply	AC220V, 50HZ

about us

Trivers Shanghai, established in 2007 by Trivers Australia, has a series of over 10 products in robotic production lines & wire harness assembly automation backed by patents. It is an authorized supplier to several Fortune 500 companies, is an executive member of the Shanghai Robot Alliance, and is a key member of government R&D projects.
